

2. Specific questions:

No.	I. Company Name	II. Managing Company	III. Business Unit	IV. Shareholders	V. Country	VI. Operation	1. "Tailings Facility" Name/identifier	2. Location	3. Ownership	4. Status	5. Date of initial operation	6. Is the Dam currently operated or closed as per currently approved design?
"Non-Managed Operations and JVs"												
48	Anglo American	South32	Coal Aus	South32; Anglo American	Australia	TEMCO	TEMCO - Fume dam 1, See Q20 for more information	41° 7.996'S, 146° 50.650'E	Non-operated JV	Inactive	1989	No

7. Raising method	8. Current Maximum Height (m)	9. Current Tailings Storage Impoundment Volume (m ³)	10. Planned Tailings Storage Impoundment Volume in 5 years time (m ³)	11. Most recent Independent Expert Review	12. Do you have full and complete relevant engineering records including design, construction, operation, maintenance and/or closure.	13. What is your hazard categorisation of this facility, based on consequence of failure?	14. What guideline do you follow for the classification system?	15. Has this facility, at any point in its history, failed to be confirmed or certified as stable, or experienced notable stability concerns, as identified by an independent engineer (even if later certified as stable by the same or a different firm).	16. Do you have internal/in house engineering specialist oversight of this facility? Or do you have external engineering support for this purpose?
Centreline	7	0.11	0.11	Inactive > 20 years	Yes	Not classified, See Q20 for further information	ANCOLD	No	Both

17. Has a formal analysis of the downstream impact on communities, ecosystems and critical infrastructure in the event of catastrophic failure been undertaken and to reflect final conditions? If so, when did this assessment take place?	18. Is there a) a closure plan in place for this dam, and b) does it include long term monitoring?	19. Have you, or do you plan to assess your tailings facilities against the impact of more regular extreme weather events as a result of climate change, e.g. over the next two years?	20. Any other relevant information and supporting documentation. Please state if you have omitted any other exposure to tailings facilities through any joint ventures you may have.
No	Yes, Yes	Yes	Q13. Dam inactive >20 years and the hazard category has not been defined. Q18. Closure options currently being examined (prefeasibility study).
